

RATED "R" Release Form

Video & Animation DMD: 233 Video Editing

Dear Parents and /or Guardians,

Your son or daughter is currently enrolled in my Video & Animation course. To instruct my classes I try to use various approaches to convey the true meaning of film and how its created and how it affects their lives. With the assistance of the cinema, the events and theories of film are more than just learned they are experienced and felt by students. Throughout the school year we will watch films in their entirety or portions of films to study editing techniques, scripts, storyboarding, camera operations, framing and camera dynamics. These films give students a first hand perspective of the theories we discuss in class. However, some of these films are rated "R" and as a result I'm asking your permission to allow your son/daughter to watch these films in class. Due to the graphic nature of these films, I am requesting students obtain a signed permission slip to view the movie as it is rated "R". Here is the list of films we will be sampling in the course.

Heidi Varela, hvarela@rlas-116.org
Video & Animation Instructor
